| **Percentile Rankings and Peer Average Ratios are produced once a quarter after the data collection is complete. Subsequent corrections to data after this date are not reflected in the Percentile Rank or the Peer Average Ratios until the next cycle.   |  |   |          |          |          |          |              |          |          |              |
| Percentile Rankings show where the credit union stands in relation to its peers in key areas of performance. To arrive at the percentile ranking, all data for all credit unions in a peer group are arranged in order from highest (100) to lowest (0) value. The percentile ranking assigned to the credit union is a measure of the relative standing of that ratio in the entire range of ratios. A high or low ranking does not imply good or bad performance. However, when reviewed in relation to other available data, users may draw conclusions as to the importance of the percentile rank to the credit union's financial performance. |  |   |          |          |          |          |              |          |          |              |
